### RECRUIT WINS CONTEST

Three Batters by Oliver Younger, with Jack London's Prose, Ample Margin.

New York, June 9. — A three-batter hit with the bases full by New York, a recruit outfielder, enabled New York to make a two straight from Pittsburgh today by a score of 6 to 4. Cooper pitched well for the Pirates until the seventh. Oeschger was relieved in the seventh for a pinch hitter. Kelly of New York was forced to leave the game after being spiked by Maranville.

### OSBORN DIVE?

HAROLD OSBORN  
OF THE HUMAN MERE CLUB  
ONE OF AMERICA'S HOTTEST IN THE RUNNING  
HIGH JUMP AT THE OLYMPIC GAMES.  
HIS JUMPING FORM HAS BEEN QUESTIONED  
BY THE FINNISH OFFICIALS  
(NOTE: OSBORN'S FORM IS NOT AS GOOD AS HIS FORM IN 1923)

EDDIE BEESON  
WHO IN 1914  
ESTABLISHED THE  
PRESENT WORLD'S  
RECORD OF 6'7 1/2"

GEORGE HORNE—FORMER  
WORLD'S RECORD HOLDER AND  
ORIGINATOR OF THE "WESTERN FORM"

Harold Osborn, a modest school teacher of Champaign, Illinois, is liable to become the center of an international athletic controversy. The French athletic authorities, noting a resemblance of a dive in the pictures of Osborn's high jumping, and the tales of how he holds on the bar with his left arm, have inquired about the legality of his form. The Amateur Athletic union rules say this on the subject: "A fair jump is one where the jumper does not go over the bar before his feet, and is not below the buttocks in clearing the bar."

To watch a contestant's form with relation to the first part of this rule it is necessary to stand at the side directly even with both uprights, while to judge the latter part of the rule it is necessary to stand in front or in back and face the bar. Some job for one official, anyway.

To quote Johnny Behr, Illinois Athletic club coach: "Osborn's right leg and left arm go up first, his right foot is first over the bar and he is one of the few jumpers who lands on his feet. If you can make a dive out of that, go ahead."

Osborn himself laughs at the idea, especially of holding the bar with his left arm. "I don't touch the bar at all," he says. "That is unless I knock it off with a poor jump. And if they object to my jumping form why they can't throw me out because of it—they can only pass judgment on each individual jump and I have three tries at each height, you know. I don't dive."

### TIE GAME THRICE; LOSE

Chappie Johnson's Colored Stars Put Across Two Runs in 10th for 6 to 5 Win Over Oneonta Giants Yesterday—Some Heavy Hitting—Ewing Duplicates feat of Last Year and Clouts Ball Outside Fence—Same Team Today.

After fighting an uphill game all the way, the Oneonta Giants, unable to do more than tie the count with the dusky players—which feat they accomplished three times—suffered a defeat in the first extra inning game of the season, 6 to 5, when the Chappie Johnson Colored Stars shoved across two tallies in the 10th frame and held the odds in their half.

The contest was featured by heavy hitting. The number of safeties was not excessively high but the victors had five extra-base clouts, including a homer, triple and three doubles, showing among their nine blows which landed in safe territory. Ewing, the big tall catcher, who dances a jig when the ump calls a ball which the receiver wanted to be over the plate, touched the sphere with a more or less hard swat in the fourth with none on for a homer over the left field fence.

This is the second time in two years that he has done this feat. The only other man to accomplish it in a game was Hood of the Scranton team.

Errors played a considerable part in the fracas, all but one of them coming after the sixth round had been finished.

Among one of the peculiarities of the affair was the fact that the Johnsonites had but two men die on the sacks. Oneonta had nine.

It was a fast double play that Hobson and Perry pulled off at the expense of the Giants in the third. Roylan had singled and was on first when Walsh hit what had all the earmarks of a safe tap on it, but which Hobson managed somehow to get under for an excellent catch and a throw to first for an easy double.

Sinistock staged a play in the seventh that has been seen very rarely on the local diamond. On an apparent bingle he ran up, grabbed the ball on the bound and heaved it to the initial bag before the batter could reach that station. The writer recalls seeing a like retirement here some dozen years ago, but is under the impression that these are the only two instances of this stunt ever recorded here.

The two teams waited until the fourth before doing more than get ready for their scoring. In this inning Ewing got his homer and in the last half of the same frame the Giants got three men on by means of safe hits, two of them bunts, with none out. They managed to get only one run before being retired, however.

The Chappies showed an across in both the fifth and sixth and then Thomas' men thought it time to call a halt, so tied the fracas with two runs, making the affair stand at three-all.

This didn't suit the visitors, who seemed to have their scoring combination down pat, and they garnered a trio of ringers in the stretch round, while the best that Oneonta could do was to get one, and that mostly the result of two errors.

That concluded the scoring act until the ninth. Walsh, first up, grounded, but Wilcox got an infield hit. Fitch fanned and Wilcox stole second. Ewing throwing to head him off. Failure to get the necessary cooperation on the part of the shortstop and second baseman, the catcher's feat went to the outfield and Tommy ran to third. Harner drew a pass. Eckstein hit to short, who batted the pulled. Wilcox scoring and Eckstein going to second. For the miss was not yet complete, for the left fielder, having retrieved the ball, threw it to third in an effort to get Harner, who wandered on to the plate. Eck taking third, where he died as Wilcox went out. First was scored.

The tenth started off in a bad way for the locals. Perry hit to Fitch, who made his first misplay in the 58 chances he has had in the 12th year. Howard sacrificed him and

WANT \$21,750 DAMAGES

Three Actions Started Against Charles DeAngelo Following Accident of May 15—Other Stamford Notes.

Stamford, June 9.—Attorney H. A. Dyckman has commenced suit for damages against Charles DeAngelo of New York city for injuries sustained by Mrs. Mina Baker of Herkimer in an automobile collision near Stamford Sunday, May 19, when the DeAngelo Buick 7 passenger auto collided with the Baker car, forcing the Baker car off the bank and injuring all the occupants.

Mrs. Baker is suffering from a fractured hip and other injuries and Attorney Dyckman sues DeAngelo in her behalf for \$15,000 to \$25,000 for Mr. Baker for personal injuries and damages to his car. Mrs. Dora LaGrave, an occupant of the Baker car is asking \$2,500 damages for injuries sustained. DeAngelo carried accident insurance to the amount of \$10,000.

The young child of Mr. DeAngelo is reported seriously ill at the home of his brother in Oneonta. The child was taken ill while the DeAngelo family were enroute from New York to Oneonta and it is said DeAngelo was in a hurry to reach his destination to secure the services of a physician and the accident happened when he tried to pass the Baker car, both westward.

Injured by Fall in Air Shaft.

One day last week while Mrs. Henry Hayner residing on the Loomis place below Stamford village was cleaning house she removed the cover from the cold air shaft of the furnace and later fell into the opening. She was alone in the house at the time and a neighbor, Mrs. George Hayner, an hour and a half after the accident Dr. Safford called at the Hayner residence on an errand and receiving no response to his ring of the door bell and hearing calls from within he entered the house and found Mrs. Hayner in the shaft. The doctor obtained a small ladder and a rope and extricated Mrs. Hayner from her cramped position. She was quite badly bruised from the fall and confinement in the close quarters and has to go about on crutches.

Annual Reunion of Wood Kindred. Invitations have been issued for the third annual reunion of the "Wood Kindred" to be held at the home of Jones and Schimandine, Blenheim Hill, Wednesday, July 2nd. An enjoyable program is being arranged and a picnic lunch will be served. June M. Wood is president of the organization and Mrs. Nellie Wood Jones, secretary.

Standard Boys G. W. Warren Serve. E. C. Hanford has purchased the store business of G. W. Warren, known as the "Ocean" located in the Dyckman block, Main street, West End. Mr. Hanford, whose drug store was destroyed by fire May 21, plans to open a drug store in the new location about June 15th.

Pleasant at Stamford. On Friday about thirty members of the Ladies' Aid society of the West End Methodist Episcopal church came to Stamford for a picnic in Stamford Park. The rain prevented the holding a picnic in the Park.

## Better Age by Using Ordinary Butterfat to Beautify Complexion

This Pretty Girl Tells How to Get the Best Results from This Wonderful New Vanishing Cream Shows a Beautiful Complexion.

Butterfat Cream creates beauty almost like magic. The most wonderful thing about it is the fact that whilst it turns the palest, most delicate complexion to radiant beauty and makes red or rough hands or arms snowy white, yet there is not the slightest sign of its use after application. It actually removes from sight and the most hated atmosphere will not produce the least shininess or greasiness of the skin.

No matter whether you are troubled with a poor complexion, wrinkles, pimples around the eyes, freckles, crows feet or lines around the mouth, ugly finger nails, or just a simple roughness of the face, hands or arms caused by wind or sun, you will find that any or all of these troubles will quickly disappear with the use of Howard's Butterfat Cream. What you get in a drop of gasoline:

Powerful gas that saves 30%  
New facts brought out by engineering tests

Here is gasoline that will give you something new to be happy about in the performance of your motor.  
Greater power—greater getaway and starting speed. With greater economy.  
For it will save you 30% of your yearly gasoline cost!

—30% of the yearly gasoline cost for the average car.

Because refined to do it  
If a drop of gas was analyzed as shown in chart above, you'd have too much. You'd see it made up of combustible units— which must do what the chart suggests.

And that chart is an accurate representation of PUROL Complete Unit. Because PUROL is refined to strict specifications. Refined to give powerful performance.

Test it  
Test PUROL in your own car. Feel the added power it gives—the greater pick-up and starting speed. You will find it always uniform. The same 5 years from now as today.

Get PUROL at any Pure Oil Service Station or dealer's. You'll know them by the pumps painted "Pure Oil blue."

Our engineers have just completed 2 years of tests—on 25 different cars. These tests prove:  
That PUROL Gasoline gives 13% greater mileage. That PUROL burns cleanly—doesn't drip into crank-case, and so saves 14.5% of fuel there. Thus saves \$2.50 on lubricating oil in a year. And so saves \$16.33 in general repairs costs because lubricating oil isn't diluted.  
On the average consumption of 300 gallons of gas, the first two savings—57% gallons at 20¢—total \$11.70. All four total \$38.81

## TAILORED AT FASHION PARK

I stopped a good customer of mine on the street and asked him where he got his new suit.

The suit had been purchased around the corner for \$35.00. I could have given him better value, but we always talked high priced stuff to him. He didn't know we had popular priced suits.

But \$35.00 is all he wanted to spend and I have learned it pays to let them know we carry a popular priced line for \$30.00 and \$35.00.

## LADY ANN AT THE NORMAL

Noted Armenian Worker Addresses Student Body at Normal School Pleading Effectively in the Cause of the Near East Relief.

That her audience was fully in sympathy with the cause for which she pleaded was shown by the active attention given Lady Ann Azgapegian, an Armenian woman who is touring the country in the cause of the Near East Relief, when she addressed the student body at the State Normal school yesterday morning. Lady Ann was introduced to the students by Miss Meadows, who is state and national representative for the Near East Relief. After a very interesting explanation of her name and a short geographical description of Armenia, she pictured very vividly conditions in Armenia as they are today and what brought those conditions about.

Lady Ann gave three causes for the suffering of Armenia. First, she is at the crossroads of the world; second, her government for the last 500 years has been in the hands of the Turk; third, all of Asia minor is rich in oil, which has caused much controversy among countries as to their control.

It is true that the Americans fed and clothed thousands of boys and girls last year but she said that unless we give them aid until they are able to go into the world and care for themselves, they would be no better off than before. Most of the children who received aid, though they have been given vocational training, are too young to support themselves and it is for this reason that Lady Ann asked that the assistance so generously given be not withdrawn.

## THE FATE OF THE FETE

Very Successful Musical Program Last Evening at Memorial School by 200 Students Under Direction of Miss Lane.

Bright colored costumes, deep green grass and green trees, and the sunset on the hills across the valley combined with an enormous crowd, created an effect that was very alluring for the fete held last evening on Normal hill. While the crowd was gathering the choir occasionally heard a child's voice with always the same story. "You're supposed to go inside if you're in it." About 200 were "in it."

For the very appropriate costumes and for the precision with which every number was carried out much credit is due Miss Lane. For she not only had charge of the entire performance but did the large amount of drilling which was necessary to make the affair so successful. This was especially remarkable in view of the fact that the fete had been postponed five times on account of weather conditions.

The festival entitled, "In the Land of Make-Believe," was presented by Normal school students and pupils from the grade school department of the school. Forest, spirits, fairies, elves and brownies, wood nymphs, giants, dew drops and butterflies peopled the oval green in front of the building.

The forest spirits were composed of Normal students in pale lavender who danced the "Greeting" for the opening number and came on again in the closing, "Frolic." The small girls of grades one, two and three were quite fairylike and did an intricate dance. The elves and brownies of grades one, two and three did an unusual dance in which snake dance formations were a feature. The girls from grade eight danced very well as rainbow fairies, their costumes being shaded so as to form a complete rainbow. Dance formations displayed the color scheme very effectively. Irene Glenn, as a wood nymph, did a very graceful solo dance and afterward was joined in the dance by the other wood nymphs all in forest green.

Donald Magaw gave a clog dance, later being joined by other boys. Then the giants who were larger boys came in with huge clubs and the elves played around the giant's feet until the elves finally escaped.

In the dew drop number three small girls from grades three and four danced in with rubber balls of a color to represent dew drops. After two of their number had retreated Dorothea Carr did a solo dance, following which a large number of dew drops from grades three and four came on and gave a very pretty dance. The costumes of the butterflies were especially distinctive with a body of royal purple and wings of many different colors. In their dance they flitted along, then realistically lighting and folding their wings.

The music, appropriate for the occasion, was furnished by Canning's orchestra.

## THE THRILL OF A LIFETIME

Parents' Spooky Club Hopes This Year to Give 150 Children of the New York Tenements a Two Week Vacation in This Vicinity.

That a few of New York city's thousands of poor children may have two weeks of life giving sunshine and fresh air this summer, Oneonta Rotary club will again sponsor the visit to this section of a contingent of Fresh Air children sent out by the New York Tribune Fresh Air fund. Last year the Rotary club secured vacation homes for 104 children of the slums and the year before sixty odd children were afforded a portion of their rightful heritage. This year it is planned to provide places for at least 150 children.

High, Clarence C. Miller is chairman of the Rotary committee in charge of the Fresh Air work this year. Associated with him are a number of active workers and plans are already under way for the securing of homes and the bringing of the children to the city.

Within a few days each one of the 150 members of the club will be paired with another and assigned a certain territory to canvass. The teams will make personal visits to every home in their section, ascertain whether or not one or more children can be provided with a two weeks' vacation home and as to the preference of the family as to age or sex. The children will probably arrive on Monday, July 7.

These children who will be given a new lease on life if the good people of the vicinity respond to the appeal of the Rotary club as it is expected that they will, live in streets the congestion and meanness of which defy description in human language. Streets where, in some places, a thousand children play—or try to—in a single block. Streets in which not a blade of grass grows, in which not a wild flower appears. The best where, for miles and miles, not a tree casts a grateful shade over blazing summer pavements. Streets, in short, where the only touch of nature is to see the human nature of the sort that poverty begets.

They live in dwellings dark, mean and impoverished; in rooms shut off from the cleansing sunlight and impossible of ventilation, where food is scanty, ill-considered and frequently poorly prepared. They live in apartments so small and so crowded that decent privacy is difficult and often well nigh impossible. These tenement neighborhoods and homes on hot summer days and nights are the habitations of slow torture and discontent.

To get the children out of them for relief from the heat, for a little chance to play, for a brief glimpse of nature in its glory, for a gaze upon the real America, for an opportunity to learn what good homes look like inside; to give them a chance to make friends among people different from the people of the tenements—all this is what the Tribune Fresh Air fund and Oneonta Rotary club are trying to do. It is for aid in doing this that the people of this vicinity are to be asked. It cannot be done without their help. It is asked that these people open their homes to the little unfortunates of the tenement, take them in for two weeks, providing them with bed and board—and a little kindness added.

## COLORFUL STARS AGAIN TODAY

Team Which Defeated Giants Yesterday to Try to Repeat Today.

Chapple Johnson's Colored Stars, who defeated Oneonta in a ten inning game yesterday, will be the attraction at Nehwa park again today and the game promises to be one of the best of the season to date. Yesterday's contest proved more than pleasing to the fans and today's game, which will be in the nature of a rubber, inasmuch as each team has won a game from the other this season, should be a corker. Chapple has gathered together a bunch of sluggers and clever fielders and no game is on from them until the last man is out in the ninth inning. Ewing, the husky catcher, is one of only two men who have ever put a ball over the Nehwa park fence in a game. Ewing did the trick last year and again yesterday.

Either Lodestro or Davis will do the twirling stunts today for the Giants. Both are in good shape and either one is likely to give his dusky opponents considerable trouble.

## TWO FIRE ALARMS SOUNDED.

Cab of Pure Oil Truck Damaged—Second False Alarm.

The firemen were called yesterday morning to the plant of the Pure Oil company on Carbon street, where a case of spontaneous combustion occurred. Some oily waste under the seat in the cab on one of the company's trucks caught fire and the cab was consumed chiefly to the cushion, curtains and the like. The truck was unharmed.

Last evening at about 8:30 o'clock an alarm was sounded from box 21 at the State Normal school. There was no fire. It was concluded by Chief Choate that some boy became so enthusiastic in his appreciation of the May Day fete given on the Normal lawn that he thought an alarm would make a fitting climax to the cheers accorded the participants. It was a relief when "no fire" was announced.

## Three Along State Road.

Several residents of Oneonta have recently had the pleasure of sighting deer on the hillside east of this city. One party on Sunday, while opposite the Hungerford gasoline filling station on the stone house farm between Emmens and Colliers, saw four of them grazing in a field on the western hillside a few hundred feet from the road. Two of the deer were apparently fawns of last year, one a buck and the other a doe, and it is probable that the old ones are the does which were frequently seen last summer and winter in the same vicinity.

## LADY ANN AZGAPETIAN

Warmly Received in Addressing Young People at Normal School. Her Message of Near East Relief Drive—To Give Three Talks Today.

That the people of Oneonta are fully alive to the worthiness of the Near East Relief campaign was demonstrated by the warm reception accorded Lady Ann Azgapegian at her three appearances in the city yesterday. Lady Ann, an Armenian refugee herself, who has a story of deep heart interest, spoke to the students of the Normal school during the morning, and in the evening addressed audiences at the Oneonta and Palace theatres.

At the Normal Lady Ann was given a warm welcome and her talk was warmly received by the young ladies. Lady Ann told the students that the kind of a world this will be in the future depends largely upon the training of the younger generation. If our youngsters are made to realize the significance of the mighty principles responsible for the growth of America and its present pre-eminence in world affairs the outlook for the future is bright indeed. She said that liberty, freedom of thought and action, was the thing that attracted the immigrants to America. She stated that other nations had gone into Armenia to develop the country of its natural resources while the people of the United States had answered the call for help sent across the waters by starving children and had worked in the country a labor of love. The gratitude of Armenia for the help of humanitarian America knows no bounds.

At both the Palace and Oneonta theatres Lady Ann's talks were well received. Girl Scouts went through the audience with milk bottles and the result was an apronful of money that will keep alive many little sufferers in distressed Armenia.

## DEDICATION OF COLORS

American Legion Auxiliary to Hold Interesting Ceremony Wednesday Evening.

The stand of colors recently purchased by the Woman's Auxiliary to Oneonta post of the American Legion will be dedicated tomorrow evening at the state armory with exercises involving an elaborate and very interesting program.

At 8 o'clock a banquet will be served to which have been invited the members of the auxiliary, the American Legion, the G. A. R., the Woman's Relief corps, the Spanish War Veterans, their auxiliary and the Daughters of the American Revolution. Mrs. J. R. Peters is chairman of the committee in charge of the meal, for which elaborate preparations have been made.

The dedication ceremony will take place at 8 o'clock and to them the general public is cordially invited. There will be a program of recitations, musical selections and addresses. Special decorations will enhance the beauty of the dedication ceremony.

Mrs. W. H. Hoyt is general chairman of the committee in charge of the events of the evening.

## Attention U. S. W. V. Auxiliary.
